Github: github.com/felix-lipski
Location: Władysławowo (willing to relocate)

About Me:

I am a young programmer with a knack for quick learning. My core value is simplicity, my highest priority - maintainable code. I've built web apps with Angular during my internship at AGInternet, but I would like to gain professional experience with React + Redux, as I am a big enthusiast of functional programming. In a more distant future, I would like to work on the back end. In my spare time I make games, learn languages and dabble in all things music.

Skills:

Programming: JavaScript, TypeScript, SCSS, Python, OCaml, Haskell
Frameworks: Angular, React
Libraries: Redux, PouchDB, PixiJs, Formik, Form Hooks, Thunk, Loop
Tools: Git, Linux, WSL, L^AT_EX, Nix

Work Experience:

2020 – 2021 Angular Developer Intern, AGInternet
Developed web apps for use in the tourism industry. Mainly worked on new features.
Built a reservation calendar application with JavaScript (PixiJs), embedded in Angular.
The technologies I've used are: Angular, JavaScript, TypeScript, PixiJs and PouchDB
2017 – 2020 LAN and CCTV Service Technician, eLcomp
Helped build and maintain internet and camera installations.
Learned general problem solving skills.

Education:

2017 – 2020 Liceum Akademickie im. Macieja Płazińskiego w Pucku
(Highschool in Puck, Poland)

Languages:

Polish: Native
English: Fluent in both speaking and writing
